Subject: Travel and Accounts

Hi Greg,

I am going to be filling out a travel request form for a trip to Korea and Russia that I am going to make in November. In Seoul I will be visiting The Korea FDA for two days and then I will fly on to Vladivostok Russia to visit Pacific State University to give a series of lectures.

The reason I am writing is this. Most of my expenses will be paid by my hosts so I don't need to buy tickets and most hotels are covered. I will, however, need to be able to pay for two nights of hotel in Seoul Korea from my Biotech Account.

That account has had a zero balance for a while and can't be charged to at the moment. I have been informed by Monsanto that they are going to make a substantial contribution to my UIFoundation Biotech account in the next 30-60 days. There should be sufficient funds to by a good margin to cover the Korean hotels.

I just wanted to alert you to all of this in advance so that you know how I intend to pay for the hotels when I make the travel request.

Let me know if there are any questions

Regards

Bruce
