Subject: A Message on Behalf of Dr. Barbara Bowman

Dear Heart Disease and Stroke Prevention Colleagues,
Below please see a personal message from Dr. Barbara Bowman.

Dear Colleagues

DHDSP is a very special place, contributing strong leadership in programs and science, remarkable people, and the amazing Artery Avengers camaraderie. It's been a great honor to work with you as DHDSP overcame formidable challenges and made the most of so many opportunities. Events in our lives remind us of how precious and fleeting life can be, and I've experienced several over the past year. Late last month, I decided that it was time for me to move to a new phase in my life. Today is my last day at CDC. I will always cherish my time with you, and I'm confident that the future of DHDSP is incredibly bright. I thank you for your support and commitment and wish you all the best.

Sincerely,
Barbara

Barbara A. Bowman, Ph.D.

Subject: NCCDPHP Leadership Announcement

Dear Colleagues,

I am very sad to announce that Dr. Barbara Bowman is retiring, effective today, from her position as Director, Division for Heart Disease and Stroke Prevention, and from CDC.

During her nearly 25 years at CDC, Barbara has held several senior leadership positions at the National Center for Chronic Disease Prevention and Health Promotion, including Associate Director for Science, Interim Director of the Division of Cancer Prevention and Control, Associate Director for Policy Studies in the Division of Diabetes Translation, and Chief of the Chronic Disease Nutrition Branch in the Division of Nutrition and Physical Activity. She also served as Acting Chief of the Nutritional Biochemistry Branch, National Center for Environmental Health. Barbara served as the official CDC liaison to NIH from 2003 to 2009.

Barbara has served with distinction and has been a strong, innovative, dedicated and supportive colleague. She will be greatly missed by our center and CDC.

I am delighted for Barbara that she is entering a new and exciting phase of her life. Retirement can be a wonderful reward for a productive and accomplished career. Barbara will enjoy her many hobbies, intellectual pursuits, travel, family and friends. Please join me in wishing her all the best.

Beginning on July 5th, the Acting Director for the Division for Heart Disease and Stroke Prevention will be Dr. Cathleen Walsh, Associate Director for Public Health Practice. Please give her your full cooperation. Dr. Joseph Bertulfo will be the acting director on Friday, July 1st.

Thank you,
Ursula

Ursula E. Bauer, PhD, MPH
Director, National Center for Chronic Disease Prevention and Health Promotion
Centers for Disease Control and Prevention
